
Corporate Fact Sheet

OmniVision Technologies, Inc. (www.ovt.com) is a leading developer of advanced digital imaging solutions. Its award-winning CMOS imaging technology enables superior image quality in many of today's consumer and commercial applications, including mobile phones, digital still and video cameras, webcams, security and surveillance, automotive and medical imaging systems.

For fiscal 2009, OmniVision reported revenues of $507.3 million. In April, 2008 the company celebrated the milestone of shipping its one billionth sensor.
